Our Organisation :

- ✓ TrueWood Doors is India's top quality premium door manufacturer, offering the widest range of designs to our valuable customers.

Our Quality :

- ✓ TrueWood Doors is an ISO 9001- 2015 certified company, assuring our customers with an unmatched quality of our products.
- ✓ We are using high quality imported membrane, pvc foils, branded adhesives and other high standard raw materials to ensure the durability and life of our doors.
- ✓ The wood used in the doors are 100% Hardwood and closely framed to ensure the strength of the door.
- ✓ The woods are chemically treated (VPT) in the vacuum pressure chamber to avoid Borer and Termite attack.
- ✓ The Woods are 100% Kiln seasoned to reduced the moisture content to avoid warping and shrinkage.
- ✓ We are using Phenol Formaldehyde (PF) resin for high bonding of plywoods layers, which ensures the 100% water proof & high bonding strength.
- ✓ We have highly skilled carpenters and machinist to ensure our manufacturing process is topnotch. Thereby meeting stringent standards and quality of our products.

Our Facility :

- ✓ We have our own in-house Design facility with a team of skilled CAD/CAM engineers, CGI technicians and Traditional Artists who create innovative designer doors suited for Villas, Apartments, Office and Shrines.
- ✓ The doors are designed with consultation of renowned Architects, Interior Designers and Traditional Artists to provide suitable to Indian culture as well as International design choices to our esteemed customers.
- ✓ We have a state of art manufacturing facility with industry's latest technology CNC machines to create precision carving on the doors.

FD 2 : 3 Core + MR Grade + Kiln Seasoned + Hardwood

FD 3 : 3 Core + PF Grade (100% Water Proof) + Chemical Impregnated + Kiln Seasoned + Hardwood

ISO 9001:2015

Certificate of Registration

This is to certify that the Quality Management System of

TRUEWOOD DOOR INDUSTRIES

234, Millers Road, East Rove, Perth, Western Australia

has been assessed and found to conform to the requirements of

ISO 9001:2015

For the following scope:

Manufacturers of "doors, wardrobes & shutters" like membrane doors, solid panel doors, melamine doors, veneer doors, laminated doors, premium coated doors, Swainson doors, metal heating doors, PVC doors, flush doors, film coated doors, solid color & shutters for independent housing apartment and commercial buildings.

Certificate number: 24906

This certificate is valid from 05-Aug-2016 to 05-Aug-2019 and remains valid subject to satisfactory surveillance audits on 20-Aug-2017 and 09-Aug-2018. Next surveillance audit on 06-Aug-2019. Certificate expires on 05-Aug-2019.

UNIVERSAL REGISTRARS

www.universalregistrars.com

This certificate can be verified on the above URL. The certificate remains the property of Universal Registrars. It shall be rendered invalid in the event of any alteration to the terms and conditions of all documents under this certificate.

Door Handling and Storage Instructions :

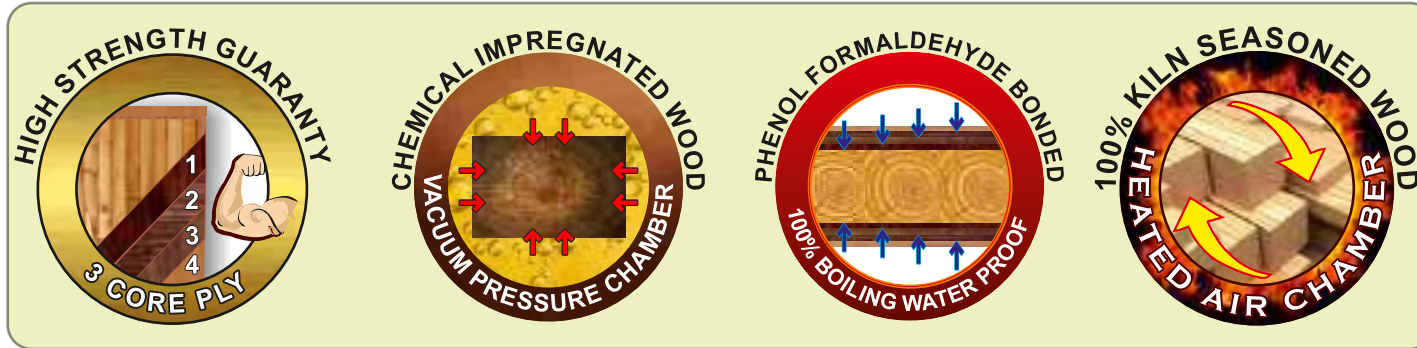

- ✓ Do not drag the doors over one another or across other surfaces.
- ✓ These doors are for interior use only.
- ✓ Doors must be horizontally stacked on flat surface.
- ✓ Store in a cool and dry place.
- ✓ Cover the stack with plastic sheet.
- ✓ Do not place or store any other material over the door.

Door Fixing / Installation Instructions :

- ✓ Fit the door after completing the wet area work and after cleaning the floor on site.
- ✓ Door frames should be properly aligned with each other.
- ✓ Avoid trimming of doors while fixing. If trimming is necessary, do not trim more than 1/2 inch per side. Be sure to reseal all trimmed sides.
- ✓ Lipping of teak or hardwood on all the four sides has to be done to prevent the moisture absorption, wear and tear of the door, thereby increasing the life of the door.
- ✓ To fix screws and hinges as per thickness and size of the door, consult an Architect / Carpenter / Hardware expert. Do not use nails and hammers.
- ✓ The door greater than 6 feet requires 4 Hinges for maximum holding capacity.
- ✓ Lock - out : Cut the shutter equally from the bottom and top.
- ✓ Lock : Only Mortise / Cylindrical or Tubular type locks are advisable, as they provide more mechanical strength.
- ✓ Hinge or lock cutout should be coated with primer/paint.
